The Republican party is urging the women to register so that they will be prepared to vote this Fall—although the Federal amendment has not been adopted yet, and the Republican governor of Vermont refuses to call an extra session of the legislature of that State for the purpose and likewise the Governor of Florida refuses. Still, it is hoped that the women may be granted the privilege of voting this year for President and Congressmen.

Mr. Bryan can't afford to bolt the Democratic party, but it is claimed the prohibition fight will be all gone over in the congressional election this Fall. In the event of a prohibition declaration for each candidate to endorse, it would be entirely fair for the candidates to see the list of petitioners.

Veteran wets who used to swear by the Constitution now swear at it.

Why is it so hard, with the country bone dry, to catch capital criminals?

The United States gave freedom to Cuba, but it is reported that Cuba will not give any sugar to the United States at less than 24 cents a pound.

In Cambridge, England, butter is sold by the yard. Were butter sold by linear measurement in this country, many of us would be forced to buy it by the inch.

Commissioner McClain says meats will continue high, but that grass-fed cattle will bring relief. Which means we'll have to keep on yelling till the cows come home.

"What was once spent on a little home is now spent on an automobile," says a complaining moralist.

Well, what of it, so long as you make your home in the automobile.

The Cost of War

A recent tabulation of federal expenses for 1920 shows what a tremendous burden war entails upon the people. Out of the taxes paid into the treasury, 98 per cent are either for purposes growing out of the recent war, or for protection against future wars. The big costs of war make it necessary to restrict the work of peace. It becomes necessary to cut down on all projects for developing the country. Work in the forest service, for public health, scientific agriculture, good roads, and many other enterprises needed for the welfare of the people, has to be cut down owing to the heavy costs of war. It is the great problem of the future: how to avoid war. Sometimes avoiding war means national dishonor, which is worse than debts or taxes But it should be possible to find honorable ways by which war can be prevented.

LIVER DIDN'T ACT
DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Meadorsville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak...

I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon righted with a few doses of Black-Draught."

Seventy years of successful use has made Thedford's Black-Draught a standard, household remedy. Every member, of every family, at times, need the help that Black-Draught can give in cleansing the system and relieving the troubles that come from constipation, indigestion, lazy liver, etc. You cannot keep well unless your stomach, liver and bowels are in good working order. Keep them that way. Try Black-Draught. It acts promptly, gently and in a natural way. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. Price 25c. a package—One cent a dose All druggists. J. 60

"THE BANK WHERE YOU FEEL AT HOME"

To the Men
Who buy inner tubes by guess

Your inner tubes are almost as important as your tires. But it takes a special skill—a rare skill—to build good tubes.

Miller stands supreme in this field. For 24 years Miller has built super-grade rubber goods.

Miller today remains the largest maker of such things as surgeons' gloves.

That sort of skill is needed in a tube. Men may differ on the best tire maker, but they cannot differ on the best tube maker. That place is conceded to Miller.

Miller Tubes
As good as Miller Tires

Layer on layer
Miller Tubes are built of thin sheets of pure rubber—surgeon grade. They are built layer on layer, sheet on sheet, up to the proper ply.

Then each tube is tested for hours under air pressure to make sure it is air-tight. Yet these ideal tubes cost no extra price.

If you will buy one Miller Tube and watch it, you will always cling to Millers.

Members of A. B. A.

Members of the American Bankers Association are protected by a world-wide detective service. Pursuit by this service of criminals who have robbed or defaulted member banks is so relentless that burglars have been known to return stolen money when they learned that the bank robbed was a member of the A. B. A. In one such case the returned money was accompanied by a note in which the burglar asked, "Why didn't you hang your membership sign where I could see it?"

There are, of course, other advantages in A. B. A. membership, but this one should be of interest to our customers and prospective customers
